Glad to have you looking into it again, Leigh! Can we schedule a time to talk after you've completed your investigations. We should figure out promptly how we want to respond to the petition and then let them know.

Thanks,
JB

Hey Leigh and Dave,
What's new on this subject?

JB

Subject: Idaho Conservation League Petition re Hells Canyon TMDL

Hi Jennifer,

I'm writing for an update on EPA's review of the Idaho Conservation League petition to revise the Snake River - Hells Canyon nutrient TMDL. A few months ago, you notified me that you were going to start work on this and hoped to provide some kind of initial response soon.

When do you expect to have that initial response? Any other updates?

Thanks,

Bryan
